

## Spend A Quiet Hour With Jesus

*Lyrics & Music by Colin McCrow*

Em            Am            Em            C            D            Em  
Spend a quiet Hour with Jesus, and wash your cares away;  
                 Am            Em            C            D            Em  
You know He has the power, you know He has the time;

### **Chorus**

Gm            D            Gm            D  
Learn to Live in Jesus, you just invite Him in,  
Gm            D            E            A  
Daily communication, the answer it is clear;  
Am            E            Am            E  
But that won't even happen, if you don't talk to Him,  
Am            E            F#            B7  
Lack of communication, makes the light you know so dim.

Em            Am            Em            C            D            Em  
Spend a quiet hour with Jesus, ask Him to change your life,  
                 Am            Em            C            D            Em  
To change you, you're a sinner, you have no other way.

Em            Am            Em            C            D            Em  
Spend a quiet Hour with Jesus, and get to know the Lord,  
                 Am            Em            C            D            Em  
When you study and you pray, you'll get your full reward.
