

YOU'VE GOTTA

Lyrics & Music by Colin McCrow

G F# G
You've gotta come back to the city with us,
F# G
Christian, Come back with us,
G# G G#
What do you think you're doing out here?
G F# G
Think of your wife and kids back there,
A G# G
Have you got a heart, who do you think you are?
A G# G
Have you got a heart, who do you think you are?

G F# G
What are you doing on this rough lonely road?
F# G
Christian, you're all a- lone,
G# G G#
We know a place and, you know its fun,
G F# G
All that you have to do is come,
A G# G
Just turn around now, and you can come with us,
A G# G
Just turn around now, and you can come with us.

G F# G
You've gotta see that your burdens are there,

F# G
Those burdens you can't share,

G# G G#
Throw them away and ignore your guilt,

G F# G
Back to the city, where you're from,

A G# G
Can't you see that life was much better there?

A G# G
Can't you see that life was much better there?

G F# G
My friends let me tell you just what I have learned,

F# G
As I've walked on this road,

G# G G#
Although the way it seems rough and steep,

G F# G
I see the light that's up ahead,

A G# G
Following the path, to where I can be free,

A G# G
Following the path, to where I can be free,
