

# JESUS PLEASE HELP ME THROUGH

*Lyrics & Music by Colin McCrow*

G                      G7                      C  
Now I'm on my own, I'm without Your love;  
                                 D                      G  
I'm tossed and tormented, By that evil power.

## *Chorus*

                                 G7                      C                      Am  
Please help me through, On the way back to Your love,  
                 G                      C                      D                      G  
But Jesus please help me through.

G                      G7                      C  
I know this trail, Is long and sore,  
                                 D                      G  
And I need Your help, Hour by hour.

G                      G7                      C  
Now I'm almost there, I can see the light,  
                                 D                      G  
A lights that's shining, through the night.

## *Chorus 2*

                                 G7                      C                      Am  
You've helped me through, So that I can be with you  
                 G                      C                      D                      G  
Thank you Lord in Heaven.
